acted upon.

It was a gorgeous affair, that royal marriage at St. James's Palace in London yesterday. No transformation scene in any spectacular drama ever sented at Covent Garden or Drury Lane Theatre could equal it in gitter and splendor. The royal family and guests trod on carpet of crimson velvet and walked under canopies of gold, graceful paims and beautiful flowers adorned every spot. The glass coach in which the venerable Queen rode to the cerenony, threw Cinderella's famous fairy chariot into the shade.

Inside the chapel the altar was hidden in floral decorations, and the magnifi- struggle. cent sacramental plate was of shining gold. Eight real, genuine Princesses, pedigree guaranteed, acted as brides maids to the fair bride. The body of the chapel was resplendent with showy uniforms, glittering orders, drawing room dresses and dazzling diamonds Fanfares of trumpets sounded on the ear as a prelude to the strains of grand

and beautiful music Amid all this display did a single thought rise from the throne of earthly majesty to the throne of grace? Wa there any room for religion in this oppressive atmosphere of royalty? Did ny one of the gay and happy throng reflect that an all-seeing eye that looked down on the scene saw that the rich gilding of the figures covered only pershable clay; that the sounding titles were worn by mere mortals, who would be of no more account at the end of

this world's honors than the lowest tollers of the earth? Everybody wishes happiness to the royal couple. Yet all the gorgeous and glittering display at their marriage does not insure them contentment and affection in their wedded life. If they had stood up before the altar in the de cent dress of honest working people, with a couple of bonnie young girls as bridesmaids in place of eight real live Princesses of the blood royal, their chances of a happy future would have

Surveyor Lyon has resigned. He denies that he wrote a letter to Secretary Carlisle, refusing to recognize the Fairchild Committee or that he disregarded any official requests or orders made by the Treasury Department. It is evident however, that both in the Appraiser's and Surveyor's offices there was a disinclination to lay bare the operations of the departments before the investigating Commission, and a desire to "cover up the tracks."

It is not known how soon Mr. Lyon's successor will be appointed, or whether he will be a New York man or a citizen of Massachusetts or some other State. The office will be run at present by Deputy Surveyor Blatchford, and fortunately he is said to be a capable and sh
